

CargoPrint

Performance Printing

- *Easy to install*
- *DAS & CargoWatch Compatible*
- *Temperature & Thermo King setpoint data*
- *Print previous trips*

CargoPrint

The new CargoPrint printer from Thermo King offers you the perfect way to provide up to the minute details of the quality of goods upon delivery. This ensures that all goods have been transported in perfect controlled temperature conditions.

CargoPrint can be connected to any DAS or CargoWatch datalogger and has been designed to be mounted on trailer bodies together with Thermo King SL or SLX units.

The printed ticket will contain such vital information as: start date of the journey, time stamp for printing, set point and data logger sensor temperature reading.

Key features of CargoPrint include:

- Easy to install on the trailer bulkhead adjacent to the Thermo King unit
- Compatible with both DAS and CargoWatch data recorders
- Delivers temperature and Thermo King unit setpoint data
- Prints previous trips
- New printer mechanism with robust system designed for continuous printing
- Ability to print trip ticket in graphical view
- High speed printing
- Built in memory – trip information stored in printer to allow for quick reprints
- On/off switch to reduce battery usage
- Ability to operate in extreme weather conditions, -30°C to +55°C
- IP 65 enclosure
- Sold with a Thermo King warranty and support from the Thermo King dealer network
